WEDNESDAY . . ..APRIL 13, 1881

NEWS OF THE MORNING.

Baconsfield was slightly better yesterday morning.

The story, which has obtained extensive circulation, that the widow of John Brown of Harper's Ferry fame was last week a seeker of assistance at the Executive Mansion, is set at rest by the discovery that the Mrs Brown in question is a widow of John P Brown, who is not known to have been a martyr or anything else in particular except a goverment interpreter in some Western region not yet specified.

An impersession is gaining ground in Washington that the dead lock will be broken towards the end of the present week or at all events during next week, by some concessions on the part of the Republicans, either open or indirect, such as allowing a few executive sessions to be held for the transaction of uncontested business, or providing that the officers elected shall not enter upon their duties until December

Hattie Deuel finished starving herse f to death at noon day before yesterday after 47 days of fasting During the 24 hours preceeding her death Miss Deuel drank no water, it seeming to sicken her. Her pulse in the morning was imperceptible respiration 35 per minute She was able to communicate with her friends by means of her fingers She said she was not hungry Her last moments were very peaceful, and her mind was clear

A Washington special says Ex-Congressman Goode of Norfolk District has been traveling through Virginia during the past month in connection with the Yorktown celebration He returned here yesterday and says that his inquiries in all parts of the State have satisfied him that the result of the coalition between the Republicans and Mahone will be to unite under Democratic leadership about all the respectability of the State against the rabble that will follow Mahone for public plunder.

Senator David Davis has written a letter to John Martin of Kansas on the present political situation, having reference to the Senate deadlock. Davis says both parties are controlled by the monopolists, and that neither can assert its will or policy or that of its constituents The only solution of the political difficulties is in a reorganization of the parties Davis says if the Democratic party would disband the Republican party would fall to pieces, because it is only kept together by Federal patronage and by the agitation of the sectional question

NOTES

It is gratifying to know that Senator Edmunds has returned from Florida improved in health, and is once more in his seat in the Senate

Ex-Attorney General Devens time has not yet arrived for a position on the U S Supreme Bench Meanwhile he has been appointed to the Supreme Bench of Massachusetts

Secretary Kirkwood, on the advice of the President, has rescinded last week's Pension Bureau appointments and required the 720 applicants to submit to competitive appointments Civil service reform

The account of the ball given by Mrs Mackay in Paris lately reads like some sumptuous fete of the Empire Two hundred servants in liveries of black and scarlet and gold, ballroom lined with mirrors and old tapestry, Waldteufels leading the band, vocalists singing the valses, souvenirs for the guests of silver from Mr Mackay's mines, bearing the Mackay arms and date of the ball, menus of white and black satin, twelve hundred dollars' worth of strawberries and sterlets from Russia Could hospitality go further? General Noyes who was importuned for invitations, replied "You seem to forget that I am here to protect Mr Mackay

The Nevada City Transcript says that two electric lights have been in use at the North Bloomfield hydraulic mine for many months past, and piping is carried on there at night the same as by day If necessary, all kinds of work about the claim could be done at night with the same facility as by daylight by increasing the number of lights The expense is merely nominal The Superintendent says that electric lights for miners are a success in every respect

The Eureka Sentinel says that a few weeks since the Nevada Bank would advance next to nothing on Comstock bullion Recently they began to open their coffers and will advance quite liberally on them. San Francisco operators construe this as a straw in favor of a better stock market And it seems to be at hand

NEWS ITEMS.

Indications multiply that Arizona will be noted for extensive coal-fields.

A successful experiment in olive-oil making is reported from Solano County, Cal.

Good miners are said to be in demand at Grass Valley and Nevada City, California.

Mahone and Alexander Stephens have fraternized, and seem to agree entirely in anticipating somthing like a political millenium and in believing that they will bring it about

In the Readjusters Convention at Harrisburg, Virginia, last Saturday, a resolution was passed indorsing and commending Mahone's action and votes in the United States Senate

At Wilmington one hundred tons of Los Angeles honey have been loaded on a French bark for shipment to Havre. About five thousand tons of wheat will be shipped from that port this month

Breed & Crosby, the well-known wood and coal dealers, of Virginia City, who went into bankruptcy by losses in stocks and business, were discharged from all their debts by Judge Rising Saturday Their liabilities amounted to several thousand dollars.

Delaware advices are unfavorable for the peach prospect. Not only has the peach crop for the season been destroyed, but the trees have on the whole suffered very badly There is reason to believe that new orchards will have to be planted before another crop like that of 1880 is again produced

Santa Claus has been entered as the California representative at the great Boston stallion trotting race St Julien is also in active work, and will be taken East during next month Both horses will make Detroit their headquarters They will both probably give exhibition trots, and may possibly meet in Chicago in a special purse

Mrs Chas Ballou, of Saranac, Michigan, the fat-famed fat woman, known as the "Mammoth Queen" died at Detroit, last Saturday Her weight when with shows was 570 pounds She has been at her home for some time past Her weight before death was 400 The casket containing her body was six and a half feet long, three feet wide and twenty inches deep

On board the Australia were twenty stallions sent by Tattersalls, of London, to his friend William Malone, of New York city, to be sold at the American Horse Exchange They are said to be of the best blood in England, and several of them are winners in good races Among them are Blue Mantle, Elshan, Muscovy, Dalnacoruoch, Silver Stream, Tympanum, Midlothian, Woodlands, Constitution, and Royalty

Hawthorne, the new town on Walker Lake, at the present terminus of the Carson and Colorado Railroad, is 111 miles from Virginia and 100 miles from the Mound House The various stations between the Mound House and Hawthorne, and the distances from the starting point, are as follows Dayton, 6 miles, Clifton, 18, Fort Churchill, 26, Washout 28, Wabuska, 38, Cleaver, 42, Mason, 45 Rio Vista, 54, Reservation, 58, Schmiz, 65, Gillis, 78, Hawthorne, 100

A San Jose spinster has sent a long and urgent letter to the Herald there protesting against the rumored project for equalizing the sexes numerically by the immigration of ladies from New England to this coast The fair and ardent writer claims, and with vehemence born of personal indignation asserts that there should be no unnatural addition to the female population of California until the marriageable maidens already there shall have been supplied with husbands

Another Indian War Imminent

A dispatch from Deadwood, D T, of the 9th instant, states that a messenger has arrived at that city from Camp Boone with the information that May, a hunter, for whose arrest for trespassing on Indian Territory a warrant was issued by Agent McGillicuddy, of the Pine Ridge agency, and the service of which was intrusted to a party of Indians, is likely to be the cause of another Indian war He reports that May's party, reinforced to the number of seventy, are encamped on the north bank of the Little Missouri, and determined to resist to the death The Indians, under Young-Man-Afraid-of-His-Horses, numbering one hundred, are on the south bank They have driven every white from their side of the river, after despoiling their camps of all hides, horses, provisions and clothing They declare they will capture May if they have to kill every one of his companions There is much feeling throughout that section and a number of May's friends start in the morning to help him out Trouble will undoubtedly occur

Bechtel, not to be outdone by anybody else in his line of business, has placed a fine billiard table in the Oasis saloon, for the accommodation of his patrons

Prosperous Lewis

The town of Lewis, where the recent trouble with the Miners' Union took place is reported by the Battle Mountain Messenger as exceedingly lively and prosperous. The Starr-Grove mill is running at its full capacity, and five stamps have been added to the Eagle mill. The Starr-Grove Company is building a new 40-stamp mill. All the mines in the district are paying $4 a day, and more men are employed than ever before. The narrow gauge railroad from Galena station is completed within a mile of Lewis, and trains are running daily. A telegraph line is being built. In conclusion, the Messenger says All things taken into consideration, the prospects of Lewis are exceedingly bright, and instead of having to go to Wood River or Arizona to find a "boom" we will have a decidedly lively one right at home.

A New Way to Commit Suicide

A Chinaman, who was a passenger on the steamer Gaelic on her last trip to San Francisco, became very despondent during the voyage, and several days before the vessel reached port he drew his tongue out with his left hand as far as he could pull it, and with a Chinese razor, which he held in his right hand, severed it near the roots He was taken before the ship's surgeon shortly after the amputation, but died in a short time after he was taken there, hemorrhage, which could not be checked, causing his death

Charley De Long's Widow.

Elida F De Long has filed her petition in insolvency in San Francisco owing to the expense of supporting herself and family of five minor children, liabilities $2,373, assets none, her furniture being pledged to a firm of grocers The debts are principally for money loaned and for goods supplied. The lady is reported to be the widow of ex-United States Minister to Japan, Charles De Long

Orphans' Home Persecution

The editor of the Eureka Leader who knows whereof he speaks, by reason of having been Director of the Orphans' Home for several years, says

The trouble at the Home is that children are and have always been sent there who have no business in such an institution Dissolute and heartless fathers who can take care of their children if they would, get an easy going District Judge to give an order for their admission to the Home, and then they are left foot-loose to go where they wish and spend their earnings in their own vile pleasures Mothers, too, will take this means of relieving themselves of the care and maintainence of their offspring, and then rustle bravely in the silks and furs which they could not have afforded if the State was not supporting their children When the writer was a Director of the Home, a woman made an application to him for two little girls, the eldest not seven years old, saying she would like to leave them there for a year, while she made a trip to Europe It is useless to say they were not admitted In the writer's opinion very many of the older beneficiaries of the Home ought to be sent to a Reform School instead of an Orphan Asylum As it is now, the large and vicious are herded with the young and tractable, and the result is, without the outside help that the vicious receive, that the institution has become demoralized We are frank to say that the ex parte showing against the present management is a very bad one, but we don't believe that any marked improvement can be made under any control while the hoodlum and the simply unfortunate have to be herded together

The Southern Nevada

The surveyors for the Southern Nevada Railway left Ledlie station last Friday morning for the purpose of running a line from that point to Grantsville The route to be taken by the surveyors will be up Reese river valley to a point 16 miles from Ledlie, where they will cross a low ridge and enter the Smith creek and Ione valley, down which they will run until a point near the town of Grantsville is reached. The Battle Mountain Messenger says of the project

The route is said to be an excellent one for the reason that only one divide or ridge will have to be crossed, that between Reese river and Smith creek valleys The balance of the route is level and can be made ready for the rails at a reasonable expense The surveying party will be in the field about three weeks, after which they will return and make a report, and in the course of five or six weeks active work will be commenced by the graders By the first of September the locomotive's whistle will be heard in the growing town of Grantsville The road will be built by the owners of the Nevada Central, and after once fairly started the work will be pushed with dispatch The necessary funds are now in an eastern bank and no delay will be had on account of finance

German society in Indianapolis is convulsed over the divorce suits commenced by August Richter, former Street Commissioner, and Dr Beaumiller Each is enamoured of the other's wife, and it is learned that a compromise has been effected to trade them, the doctor to pay Richter $1,000 to boot Beaumiller and Mrs Richter and her son have gone to St Louis together.

EFFECTS OF HIGH RATES OF TRANSPORTATION.—The development of Arizona, and particularly that of the mineral regions, has been retarded, so the miners assert, by high rates of transportation by rail. A correspondent of the Bulletin cites the following instances.

Lumber can be taken from the mountains fifty miles distant, and hauled on wagons to the town cheaper than it can be shipped from San Francisco. It is said that it costs $60 a ton or $600 a car to ship machinery from San Francisco to Benson, the latter point being a station on the Southern Pacific twenty miles distant from Tombstone. It is said to be the general impression throughout the Territory that the railroad policy is one that is alike disastrous to the country and the carrier The Railroad Company loses, because its policy hinders the settlement of the country and the opening of mines. The poor miners lose because they cannot afford to ship high-grade ore to market, for which they might receive sufficient money to continue mining until enough was realized to buy a stamp mill Even men with ordinary means do not feel justified in the purchase of machinery, because the freight charges are so high. Again, passenger fares are thought to be much too high, and if lowered would increase travel, and really result in immediate profit to the Company. A round trip ticket from San Francisco to Tombstone ought to be sold for $75. The fare one way is now $58

It is claimed by the people of the Territories that low rates of freight and fare for Arizona and New Mexico will do more for the prosperity of San Francisco than anything else Merchants down there say that salmon canned in San Francisco and shipped East is received in Tombstone from New York at as low a rate as it can be received direct from San Francisco An instance was cited of freight coming from New York over the Union, Central and Southern Pacific roads to Yuma for 3½ cents a pound, when the charge from San Francisco to Yuma was three cents a pound

Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office

A GENTLE HINT.—In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you German Syrup is now sold in every town and village on this continent Sample bottles for trial, 10c, regular size 75cts

Geodetic Survey.

Prof. Eimbeck and Robt A. Marr, of the U. S. Geodetic Survey, have been making observations at this station since Monday noon, to determine the declination, dip, and intensity of the magnetic force at this point. They have their tent pitched and instruments stationed in the southwest corner of the court house yard. They expect to complete their labors here by noon to-day, and from this point will go to White Plains, a station on the C P east of Wadsworth Prof. Eimbeck informs us that there are stations all through the interior of this coast from which in connection with observations from the coast survey, results will be formed subsequently corrected by observations years hence, which will enable predictions to be made that will last for nearly a century.

Loomis' New Goods

The gentler sex in general are credited by the lords of creation as being very extravagant in all matters of dress It is the natural sphere of woman to appear in public as well as in private adorned in all the fineries known to the millinery and dressmaker's art And gentlemen admire them for it even if they are obliged to bear the expense and growl at the extravagance. After all, a lady will go several blocks to save a few cents on an article, while a man will purchase at the first store he comes to and not ask the cost In this connection we would like to call the attention of the ladies to the stock of dry goods now being sold by Charles Loomis, at his store on Commercial Row His new stock is a magnificent one. Read his new advertisement

Green Fields

The Evans Bros. fields around the reservoir are looking nicely They have about one hundred and twenty-five acres in wheat and barley, which is coming up nicely, with no signs of grasshoppers anywhere around Directly north of their barley field Blum has forty acres of wheat and will soon have a splendid ranch for himself Off west near the railroad track Joe Wells has a good piece of land under cultivation These places have all been fenced in, and give evidence of thrift and prosperity to that section

Julien's Mill

On account of the water being shut off Tom Julien has had to close down the Con Esmeralda mill He had time, however, to work two tons of the ore, from which a small brick was the product. The brick was about four inches in length and one in width It was thought to contain quite a large percentage of gold, but as it was taken to San Francisco by one of the owners, we do not know its exact worth, but from Mr Julien we understand its value was $37 Very good

The Minstrels

The Virginia Enterprise does not think much of the performance of the New Orleans Minstrels In its issue of yesterday it says

A minstrel troupe, like a circus, be it good, bad or indifferent, never fails to draw a crowded house the first night, and the Opera House last evening fully justified the truth of that peculiar axiom of our theater-goers The house was crowded in every part The entertainment of the New Orleans Minstrels was simply execrable, and with the exception of professor H Mehden, the only white man in the company, who is quite a musical prodigy in his way and whose performance on a variety of instruments was very delightful, the entertainment, from beginning to end, did not present a single redeeming feature of either artistic merit or intelligent understanding of a three-hours programme The jokes were old and stale and given in a manner so utterly stupid and uncouth as to draw demonstrations of derision instead of merriment There is not a good voice or decent performer in the whole crowd, and it looks as if the street parade of the company formed the best part of the show We cannot but speak of a performance as we find it, and without any desire to be harsh or severe we are constrained to stamp the performance of the New Orleans Minstrels last night as by all odds the worst entertainment of that character ever presented in Virginia, and simply hope that, as the company will give an entire change of bill to-night, they will do better, and if it is in them, offer a performance worthy the attention of a critical and intelligent audience, such as this fair city invariably presents

Last night's Chronicle hits them squarely in the eye in this manner

The well-advertised New Orleans Minstrels appeared at Piper's Opera House last evening before a large audience The performance was too utterly bad for criticism The only thing to take the curse off was the way in which Professor Mehden managed a number of musical instruments The jokes of the performers were without wit, and the songs had neither harmony nor melody The whole performance was, in fact, so wretched that more than three-fourths of the audience left before the red curtain dropped It is evident that the colored persons comprising this company are amateurs of little ability and less experience They are to appear again this evening—provided they can get an audience.

DR. WM. HALL'S BALSAM

Cures Colds, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the membranes of the Lungs, inflamed and poisoned by the disease, and prevents the nightsweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALSAM is that remedy. DON'T DESPAIR OF RELIEF, for this benign specific will cure you, even though professional aid fails.

Dr. M. H. Hinsdale.

Kewanee, Ill., advises us of a remarkable cure of Consumption He says:
"A neighbor's wife was attacked with violent lung disease, and pronounced beyond help from Quick Consumption. As a last resort the family was persuaded to try HALL'S BALSAM. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work I saw her at her worst stage, and had no idea she could recover.

MIDDLED-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness Dr S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito urinary organs.

INSURANCE.

INSURANCE! INSURANCE!!

THE ATTENTION OF THE PUBLIC IS called to the following notices from the April number of the "Coast Review," the recognized authority on insurance on this coast, of the Insurance Companies represented by the Agency of Jacobs & Easton, and for which

W. N. Knox is Agent for Reno:

THE TRADERS'.

The Traders' Insurance Company is a conservative, well-managed company. The assets, of nearly one million dollars, consist of the very best securities, being principally United States bonds. The original capital of $500,000, in United States bonds, has never been touched since the organization of the company. The losses paid to date aggregate $1,700,000, and the surplus to policy holders is $724,000.

THE GLENS FALLS.

The Glens Falls Insurance Co., better known as the "Old and Tried," has had a remarkable record of prosperity Its assets go beyond a million dollars, and the surplus $729,384.33. This company does business under the Safety Fund law of New York, and shows the largest book value of stock of any fire insurance company of the United States.

BUFFALO-GERMAN.

The Buffalo-German Insurance Company also does its business under the Safety Fund law of New York, which makes its policies doubly secure This company has assets amounting to $825,432 79, and a surplus to policy holders of $644,071 53. The stock of the company has a book value of $322 04 for every hundred dollars, which brings the Buffalo-German fourth on the list of all American companies.

THE UNION

The Union Insurance Company of Philadelphia, was incorporated in 1804, and since then has paid out in losses more than $10,000,000. The assets of the company are about $900,000, with a surplus to policy holders of $600,000 This company has lately moved into their new and elegant building, the present large quarters being necessary for the transaction of their increased business.

THE TRADESMENS'.

The Tradesmens Insurance Company of New York City, points to an honorable and successful record of nearly a quarter of a century, suffering largely in the Chicago conflagration, and paying on the great Boston fire alone more than the amount of its entire capital, without calling upon its stockholders for one dollar, and to-day is stronger than ever.

THE ROCHESTER GERMAN

The Rochester German Insurance Company is a well managed institution, writing small lines and making haste slowly It has assets of nearly a half million dollars, and a handsome surplus beyond its capital. Since its organization it has made steady progress, adding yearly to its assets, as well as to its surplus.

THE SHOE AND LEATHER.

The Shoe and Leather Insurance Company is one of Boston's best companies The assets of the company, January 1st, 1881, amounted to $859,939 74, and the surplus to policy holders $587,249 52. Always prompt and honorable in paying off losses, this company has earned an enviable reputation.

THE ORIENT.

The Orient Insurance Co., of Hartford, is well known to the insuring public, having done business on this coast some years ago The company withdrew from here for some reason or other, and has returned now, intending to stay. Its assets are $833,581.07, and the surplus $682,-611.31 apl2
